Welfare and Discipline Framework – Promoting a Positive School Culture

- Effective Teaching and Learning
- “Firm but Fair” Discipline
- Staff and Student Welfare
OBJECTIVE

Mendooran Central School aims to develop resilient and responsible students capable of displaying sound values and working toward fulfilling their individual academic, social and creative potential.

“Students achieve maximum learning outcomes when they are able to work in a caring, secure, supportive environment, which involves the whole school community working together to provide quality educational programs.” DEC NSW.

Welfare involves the wellbeing of students regardless of their cultural, ethnic or economic background or gender. Welfare encompasses everything the school community does to meet the personal, social and learning needs of students. Equity is measured by the achievement of the DEC syllabus outcomes based on individual needs.

Staff welfare is also a priority. The 'Code of Conduct' states that staff need to be, 'courteous and responsive in dealing with colleagues, students and members of the public and to work collaboratively with colleagues.'

As employees who work with students we have a special responsibility in presenting ourselves as appropriate role models for those students. In our discourse we need to promote positive values and tolerance, in order to promote a positive school culture. Modelling respect in our interactions with students and staff can have a profoundly positive influence on a student's personal and social development.

The focus of the Welfare and Discipline framework is the promotion of students’ personal responsibility for their own behaviour. Students are encouraged to develop their intrinsic motivation to develop a positive and responsible attitude.
